HEALTHY *Eating*

Integrating essential oils in your cooking and diet is key to a healthy lifestyle. Not only do they boost flavor, they also reduce toxicity, and increase health benefits.

Tip: Use small amounts of oils in your cooking (especially when using Italian herb oils, start with just a toothpick dipped in oil and then add more to taste as needed).

It's hard to get everything you need in your daily diet. Add Lifelong Vitality and TerraZyme® to your daily regimen to support your nutritional needs, digestion, and energy levels.

HEALTHY *Cleansing*

All disease is related to deficiency and toxicity. Here are a few great reasons why now is a great time to cleanse:

- Your digestive system makes up 60-85% of your immune system.
- Breakdown of the gut leads to increased toxicity and pain in the body, as well as compromised immune, mood, and brain function.
- There are more neurotransmitters, the communication channel between the brain and the body, in the digestive system than in the brain.

Tip: Use citrus oils in your water for gentle, natural cleansing that will help you stay well and alkalize your body.
